- PEOPLE LIVING WITH HIV/AIDS: 34,131
- FY2010 5,586 CLIENTS SERVED IN ADAP
- TOTAL RYAN WHITE FUNDING:108,969,080

"I use **Ryan White** transportation and case management services. With the help of case management I was able to get my own place, and be more social. I am very busy now attending meetings, learning and supporting others with HIV. I really can't say where I would be without these services, but with them I am doing very well. Case management was a blessing to me. It got me where I am today; they really cared and helped me out a lot."-**Sandra T.**,

NI

New Jersey is among the top 10 states reporting the highest number of HIV diagnoses in 2011 with 1,567 diagnoses

*15.5% rate of AIDS Diagnoses in New Jersey, 4.7% **HIGHER** than the national rate*

The **Ryan White Program** funds primary health care, support services and life-saving medications for more than one-half million low-income, uninsured and underinsured people living with HIV/AIDS each year
