2025 biomedical HIV prevention Summit

PRESENTED BY
NMAC
leads with race

Why Sponsor the Biomedical HIV Prevention Summit?

In its ninth year, the Biomedical HIV Prevention Summit has grown in size and importance to the HIV community. In 2024, more than 1,800 leaders, advocates, and educators convened to share ideas and learn about new approaches to maximize the use of biomedical HIV prevention methods.

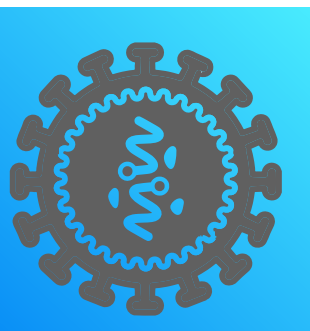

Sponsoring the Summit builds visibility for your brand or organization, connects you with a diverse group of decision makers, and gives you a forum to share your organization's message and expertise to the hundreds of registrants that are expected to be in attendance. Additionally, your sponsorship allows the Summit to create innovative programming and funds scholarships to people affected by HIV/AIDS. Make sure that you are present to have important conversations with leaders, decision makers, and front-line service providers.
